

EXPRESSIONS OF INTEREST

SENIOR SURVEYOR (Survey Team Leader)

- Stamp your name on some of the leading projects in South East Queensland
- Develop and manage up to four survey crews
- Participate in the continual development of internal systems and processes

A move to MPA Surveying will offer the right candidate many things, over and above the use of the best in hardware and software, access to robotics, and total stations because.....

At MPA Surveying our people are our focus! It's their talent and dedication that has made us one of Queensland's leading surveying firms, providing professional services to major civil and construction projects across South East and Central Queensland, as well as a number of mining operations across the Bowen Basin.

With the company's continual growth and successful acquisition of multiple long term and short term projects in **Brisbane** we are seeking experienced Senior Surveyors to join our professional team mid 2009.

MPAS is the right employer for you if you.....

- Have demonstrated experience in managing the survey requirements for medium to large sized civil works and construction projects
- Enjoy running and managing your own projects and people
- Possess relevant surveying qualifications (minimum diploma level)
- Have working knowledge of 12d or AutoCAD, Total Stations and GPS equipment
- Enjoy liaising with clients and mentoring colleagues on a regular basis
- Possess a high degree of accuracy and proven time management skills
- Can demonstrate a strong commitment to safety and attention to detail
- Enjoy your work and know how to have fun!!

....and you are looking for....

- A **challenging role** in a supportive team environment
- Excellent **development opportunities** – through informal training & on-the-job mentoring
- **Job diversity** – potential to gain valuable field experience and later move into one of many varied roles in our growing business
- **State of the art technology** – **mpas** was one of the first surveying consultancies to use dual constellation GPS in the field!
- **Well-developed systems and processes** and a safe working environment
- **Positive work culture** – the chance to work independently & collaboratively within a great team of colleagues
- **Ongoing recognition and rewards** – team members are proportionately recognised for the big and little achievements made
- **Attractive remuneration package on offer**

To grasp at this opportunity send your resume today, to careers@m-p-a.com.au or phone Catherine O'Connor on 07 3002 2325 for a friendly chat

MPAS will only accept direct applications for this position
